VENUS is a highly-functional steel inset fire with a flue diameter of 150 mm and with the regulated output from 3 up to 9 kW. The fireplace insert can be also equipped with an 80mm diameter air reduction for the primary air inlet from the exterior. In this instance the appliance does not use air from the room. For combustion except when you are refuelling. The VENUS range products are without a traditional grate which means easy cleaning of the burning area.
